

Mission

Mount Soma's mission is to help bring peace and harmony to the planet by integrating ancient spiritual wisdom with modern life. Built according to the Shastras, Mount Soma will be an Enlightened City and spiritual destination center. It will set an example of how to feed and nourish each culture, while harmonizing all cultures.

As Adi Shankara said, "The knowledge is easily lost and the understanding must be purified throughout time." Mount Soma is being created to purify spiritual understanding and bring out Vedic Knowledge in a way that makes sense to the younger generations and modern mentality. Mount Soma will include a Vedic University that integrates Vedic principles with Western thought, and a World Center where business leaders, politicians, and humanitarians can come together to evolve those fields through Vedic principles.

Vedic Temples, like Sri Somesvara, have a refined and powerful vibration that feels pure, whole, and radiant. An Enlightened City amplifies this vibration thousands of times. Just as a small light bulb illuminates a room, Mount Soma will be a beacon of light to the world.

"Contained within the Veda is the knowledge of how to construct an Enlightened City that will radiate coherence and harmony to our entire world. Mount Soma is that place."

— Dr. Michael Mamas

Vision

Mount Soma's Enlightened City will include:

- * Temples
- * Murthis with Parks
- * Vedic University
- * World Business Center
- * Vedic Wellness Center

India Projects include:

- * Michael Mamas World Peace Project
- * Michael Mamas World Men Project
- * Michael Mamas Gurukulashram

Dr. Michael Mamas is the visionary, developer, and spiritual leader of Mount Soma, and is the only Westerner ever to receive the award, Adhyatma Vidhya Visharad (Master of the Deepest Spiritual Knowledge).
